	GMG ColorPlugin Packaging Pro	GMG ColorPlugin Pro	GMG ColorPlugin Standard	FontLab	ColorChecker	ICC Profiles	ColorChecker

Supported operating systems and Adobe Photoshop versions

Supported operating systems		Supported versions of Adobe Photoshop	
MacOS X Sierra 10.12	Windows 10	CC 2017	CC
MacOS X El Capitan 10.11	Windows 8.1	CC 2015.5	CS 6*
MacOS X Yosemite 10.10	Windows 7	CC 2015	CS 5*
MacOS X Mavericks 10.9		CC 2014	

**Photoshop CS5 and CS6 do not support the new GMG ColorPlugin extension.*

Download

[GMG ColorPlugin 1.2](#)

Setup

1. Please make sure that Port 80 is cleared for inbound and outbound communication in your Firewall / Proxy Server for the application Photoshop.
2. Download the installer package from our website.
3. Run the installer. It will automatically list the application path of the latest Photoshop installed on your PC/Mac.

License activation

Click [here](#) for instructions how to request and activate the GMG ColorPlugin license.

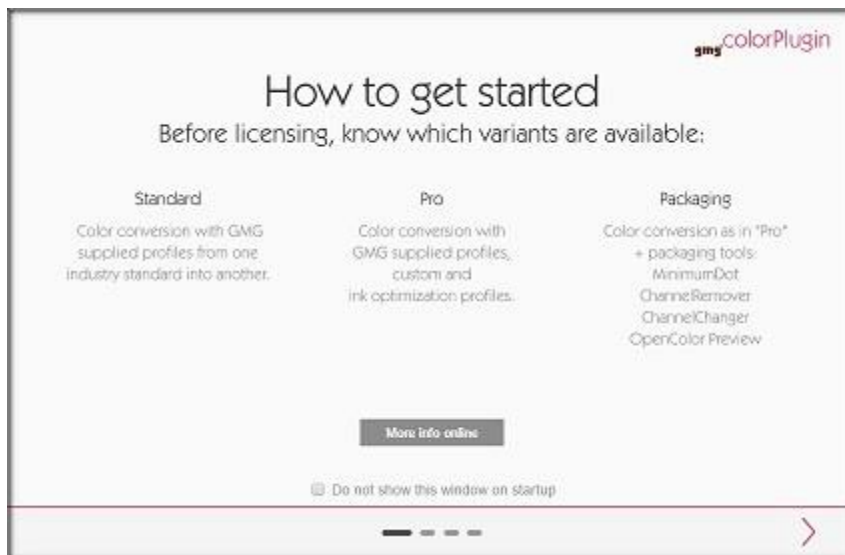

Internet

Internet connection is required for installation and use of GMG ColorPlugin. The application downloads new profiles on demand (first use or using the download all functionality)

New Features

Welcome Tour

Starting with this version a welcome tour provides valuable information on product variants, licensing procedures and support contacts.

Improved Windows installer

The Windows installer has been optimized, streamlining the installation and removal process and improving usability.

Resolved issues

The following technical issues have been resolved in ColorPlugin 1.2.1.47. Please note that the list describes the original problem, not the solution.

Wrong Smart Filter name

Removing Channels from a smart object changed the name of the filter to "GMG Color Conversion" instead of "GMG ChannelRemover". [72687]

Channel changer profile CMYK to CYKG does not separate to green

The separation from CMYK to CYKGreen did not use the Green channel. Colors were separated to CYK instead. [72682]

Preview of reverse printing standards not accurate

Channels were swapped in the preview generated for Channel changer actions using reverse printing output color spaces. [72540, 72741]

Errors when running ColorPlugin and Esko FlexTools on the same system

Running GMG ColorPlugin and Esko FlexTools on the same Photoshop caused errors on calculation and crashes of Photoshop.[70521]

Chinese Photoshop: Empty channels after image processing with ChannelChanger

Using ColorConversion on a certain image on a chinese OS resulted in all channels being empty. [73918]

End of life

Please note that we will no longer provide bug fixes, maintenance releases, workarounds, or patches for bugs found in GMG ColorPlugin 1.2.0.45x or older.

Build number

GMG ColorPlugin 1.2.1.46 (Mac)

GMG ColorPlugin 1.2.1.47 (Windows 32bit)

GMG ColorPlugin 1.2.1.47 (Windows 64bit)

Questions? Feedback? Comments? Please, let us know!

With kind regards from Tübingen
